

10 REASONS TO CHOOSE

YottäVault™

Yottä280™

REASON #1 TO CHOOSE

"SaaS"

Software as a Service - Managed by Experts

NO License Fees or Updates to manage !

Taking advantage of new outsourced backup services makes sense; from both a data protection and bottom line perspective. *It's time to discuss your options and remove the thorn in your side.*

Enterprise Storage Forum

REASON #2 TO CHOOSE

“AGENTLESS”

***ELIMINATES installing
software on EVERY
computer !***

"The agentless backup solution significantly reduces the complexity of managing a backup environment, which answers the number one complaint that we hear from customers about their current backup software."

Enterprise Strategy Group

REASON #3 TO CHOOSE

“CDP”

**CONTINUOUS DATA
PROTECTION !**

“CDP has quickly become a highly desirable requirement. Offering this functionality as a non-chargeable agentless feature is a stroke of genius. It has the potential of radically altering the data protection market landscape.”

Dragon Slayer Consulting

REASON #4 TO CHOOSE

***“Remote Office
Backup &
Recovery”***

WITH CENTRALIZED MANAGEMENT !

Now that the rest of the world has finally figured out that remote backup is a problem, who else can solve the problem with NO AGENTS?”

Enterprise Strategy Group

REASON #5 TO CHOOSE

“OFF-site & ON-site Protection”

***World Class Off-site Data
Center; YottaLocal Vault
installed at your location !***

**“Leading the way in OFF-site & ON-site
backup with rapid RECOVERY.”**

Yotta280

REASON #6 TO CHOOSE

“Global Data De-Duplication”

*Process of eliminating redundant
files, bytes or blocks of data !*

**“Reduced backup capacity requirements
translate into cost savings.”**

Enterprise Strategy Group

REASON #7 TO CHOOSE

***“Instant LAN
speed restores”***

***Easiest & Fastest way to
recover lost data.***

**“The Local Storage Vault can help address
disaster recovery requirements.”**

GRID today

REASON #8 TO CHOOSE

“Agentless Bare Metal Restores”

Quickly recover to ANY bare metal system !

“The first agentless solution to enable bare metal restore capabilities across distributed enterprises.”
Continuity Central

REASON #9 TO CHOOSE

“Regulation Compliance”

*Retention, Recoverability &
Disposition !*

So what exactly are the consequences of non-compliance? To your company, non-compliance can mean financial penalties, reduced stock value, loss of customer confidence and lost sales revenue.

Enterprise Strategy Group

REASON #10 TO CHOOSE

“Backup Lifecycle Management” ***(Long Term Storage)***

**Data Retention Rules Automate
the process 100% !**

**“Backup lifecycle management is a critical
part of the overall management of
enterprise data.”** **Data Mobility Group**
